PolySub™ Grows Global

Sharon Center, OH - The addition of several distributors in the U.S., Mexico and Spain was recently announced by Keith Kleve, V.P., PolySub™. Mr. Kleve remarked that they (PolySub™)..... “were very pleased with the enthusiastic acceptance of the PolySub™ 11 Oz. mug.”

Domestically, Coast Graphic Supply, Johnson Plastics, SEPS Graphics, Inc. and Transfer Technology have joined the PolySub™ team. EM Graphics has been awarded a distributorship in Mexico and Distiber (Spain) has become the first European continent distributor.

PolySub™ is a lightweight polymer that is specifically engineered for sublimation. Dealers have found that their customers prefer the durable, dishwasher-safe material, for many applications, to other mugs that require a coating to accept the sublimation dye.

For additional information on distributorships and product advantages, visit www.polysub.com or contact The Sattler Companies, P. O. Box 306, Sharon Center, OH 44274, Phone: 877- 728-6224 (toll free).
